- **Comune di Casole d'elsa La Valle del Sole – Italy**
- **Atrium Research & Innovatie BV- Netherlands**
- **e-ISOTIS - Greece**
- **FUNdACION ICSE – Spain**
- **Marie Curie Association - Bulgary**

Starting situation

- A lot of unemployed people with social-psychiatric disabilities
- A qualification system which doesn't respect the special needs of people with social-psychiatric disabilities
- Professionals working without connection to the communities and the social structures of the clients

Target groups

- People with a psychiatric diagnosis
- People with psycho-social problems („who don't fit in!“)
- Social active people in the community

Main targets

- Promotion of self-determined life
- Strengthening the community
- Sustainable implementation of high quality professional education
- Exchange within the partner countries

Promotion of self-determined life of people with social-psychiatric disabilities

- Establishment of permanent individual supporting networks within the social life environment of the clients
- Support in terms of empowerment
- Support of social competence
- Training in ICT
- Qualified education

Strengthening of the community

- Qualification of regional active persons
- Analyses of the potentials and deficits of the community
- Activation and further development of the regional networks
- Seeking and finding of new jobs especially particular niche employment

Sustainable implementation of high quality professional education

- Push discussion in the partner countries about high quality professional education
- Sustained implementation of the model of community close employment integration in the educational and employment policy of the partner countries

Exchange within the partner countries

- About methods of job creation
- About new niche employment for people with social psychiatric disabilities

Results

- Curriculum for the education as community close integrational worker
- Curriculum for qualification program for people with disabilities
- Internet platform
- Guideline for job creation
- Manual for community close vocational integration

Curriculum for education as community close integrational worker / 4 modules

- For people with interests in integrational work
- Persons who are employed in the communities
- Voluntary active laypersons

4 modules

- Training in ICT
